Who Should Attend

The Course would be of interest to Healthcare Professionals involved in managing diabetes, its complications, and associated diseases, including

- Medical and Surgical Specialists
- Medical and Health Officers
- Pharmacists
- Diabetes Educators
- Medical Assistants
- General Practitioners
- Trainee Lecturers
- Nursing Practitioners
- Dietitians / Nutritionists

Clinic Diabetes is an Interactive Course to be conducted by Key Opinion Leaders (KOLs) in diabetes and related fields. It will be based on discussion of relevant clinical cases to define best options in the management of diabetes, associated diseases and complications.

The Course is divided into Sessions. Each session shall start with short presentation to highlight specific features and significance of a condition followed by presentation of 1 – 2 relevant cases for discussion by a Panel of KOLs in the specific field(s) of interest.

Audience participation

The audience is expected to participate in the discussion by asking questions and providing opinions orally or via Slido.

Participants Input

Participants are encouraged to submit their (problem, interesting) cases for discussion.

A participant whose case is accepted for discussion will be given free registration to attend the Course. He/she will also be invited to provide additional information as resource person, during the case discussion.

The Course would be of interest to Healthcare Professionals involved in managing diabetes, its complications, and associated diseases.

Twelve sessions are planned

Session #	Topic
Session #1	Physical and Dietary Therapy
Session #2	Glucose-Lowering Medications: Oral
Session #3	Glucose-Lowering Medications: Injectables
Session #4	IFG and IGT
Session #5	Diabetes in Pregnancy
Session #6	Diabetes in Children
Session #7	Targets for Glycaemia and Associated Conditions
Session #8	Diagnosis and Practical Management of Patients with Diabetic Kidney Disease
Session #9	Microvascular Complications
Session #10	Treating Obesity in Diabetics
Session #11	Diabetes with Heart Disease
Session #12	The Complicated Cases: Prioritising and Optimising Management

Case Discussions

At least eleven (11) cases will be presented for discussion by Experts in Diabetes and Associated Disciplines
